No 1 I'm Great Hanover failed to come up to position on gate . Starter left him behind. Driver of the horse B Barry when asked for an explanation by the stewards, he said that he had to make an equipment change and never got a chance to come under starters orders . He was told if he had notified the stewards when parading they would have held the race but as they weren't aware of this the race went on without him . As this is the second time this has happened with this driver he was fined €50 and given notice if it happened again he would have his C class license removed.
